

In the Claims:

Amend claim 7 and cancel claim 32 as follows:

1 - 3 (cancelled).

4 (previously presented). The sink of claim 26 further comprising the panel, wherein a front face of said panel is decorated with a three-dimensional decoration.

5 (previously presented). The sink of claim 4 wherein said panel is constructed of metal.

6 (previously presented). The sink of claim 5 wherein said panel is constructed of a metal different from that of said sink.

7 (currently amended). The sink of claim 26 ~~further comprising at least one~~
wherein said fastener is a bolt for insertion through said hole.

8 (cancelled).

9 (previously presented). A kitchen counter assembly comprising the sink of claim 26.

10 - 25 (cancelled).

26 (previously presented). A farm sink adapted to receive an attachable decorative panel, comprising:

a top surface having a depression defining basin of the sink; and

an apron depending downwardly from a front portion of the sink,

said apron being spaced apart from the basin by a

substantial gap, said apron having at least one hole for

receiving a fastener for fastening the decorative panel to the

sink, for displaying the decorative panel on the sink.

27 (previously presented). The sink of claim 26, wherein said apron has a front surface having a recess adapted to receive the decorative panel, wherein said hole is provided in said recess.

28 (previously presented). The sink of claim 27 further comprising the panel, wherein a front face of said panel is decorated with a three-dimensional decoration.

29 (previously presented). The sink of claim 28 wherein said panel is constructed of metal.

30 (previously presented). The sink of claim 29 wherein said panel is constructed of a metal different from that of said sink.

31 (previously presented). The sink of claim 27 further comprising at least one bolt for insertion through said hole.

32 (cancelled).

33 (previously presented). A farm sink adapted to receive an attachable decorative panel, comprising:

a top surface having a depression defining basin of the sink; and

an apron depending downwardly from a front portion of the sink,

said apron being spaced apart from the basin by a

substantial gap, said apron having a front surface having a

recess adapted to receive the decorative panel, for

displaying the decorative panel on the sink.

34 (previously presented). The sink of claim 33 further comprising the panel, wherein a front face of said panel is decorated with a three-dimensional decoration.

35 (previously presented). The sink of claim 34 wherein said panel is constructed of metal.

36 (previously presented). The sink of claim 35 wherein said panel is constructed of a metal different from that of said sink.

37 (previously presented). A kitchen counter assembly comprising the sink of claim 33.
